SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549  
FORM 8-K

CURRENT REPORT

Pursuant to Section 13 or 15(d) of the  
Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): February 28, 2022

FORUM ENERGY TECHNOLOGIES, INC.  
(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	001-35504 (Commission File Number)	61-1488595 (I.R.S. Employer Identification No.)
---	--	---

10344 Sam Houston Park Drive (Address of Principal Executive Offices)	Suite 300 Houston TX (Zip Code)	77064 (Zip Code)
--	------------------------------------	---------------------

(Address of principal executive offices and zip code)

281 949-2500

Registrant's telephone number, including area code

(Former name or former address, if changed since last report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	FET	NYSE

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

## Item 2.02 Results of Operations and Financial Condition.

On February 28, 2022, Forum Energy Technologies, Inc. (the “**Company**”) issued a press release announcing earnings for the quarter ended December 31, 2021. A copy of the release is furnished herewith as Exhibit 99.1 and incorporated herein by reference.

Exhibit 99.1 to this report contains “non-GAAP financial measures” as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”). The non-GAAP financial measures reflect earnings before interest, taxes, depreciation and amortization expense (“**EBITDA**”), adjusted EBITDA, adjusted operating income, adjusted net income, adjusted net income per diluted share (“**Adjusted Diluted EPS**”), book to bill ratio and free cash flow, before acquisitions (“**free cash flow**”). A reconciliation of EBITDA, adjusted EBITDA, adjusted operating income, adjusted net income, Adjusted Diluted EPS, book to bill ratio and free cash flow to the most directly comparable financial measures calculated and presented in accordance with Generally Accepted Accounting Principles in the United States (“**GAAP**”) is included as an attachment to the press release. The Company believes the presentation of EBITDA, adjusted EBITDA, adjusted operating income, adjusted net income, Adjusted Diluted EPS, book to bill ratio and free cash flow are useful to the Company's investors because (i) each of these financial metrics are useful to investors to assess and understand operating performance, especially when comparing those results with previous and subsequent periods or forecasting performance for future periods, primarily because management views the excluded items to be outside of the Company's normal operating results and (ii) EBITDA is an appropriate measure of evaluating the Company's operating performance and liquidity that reflects the resources available for strategic opportunities including, among others, investing in the business, strengthening the balance sheet, repurchasing the Company's securities and making strategic acquisitions. In addition, these benchmarks are widely used in the investment community.

The presentation of this additional information is not meant to be considered in isolation or as a substitute for the Company's financial results prepared in accordance with GAAP.

The information contained in this Current Report shall not be deemed to be “filed” for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into a filing under the Securities Act of 1933, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

## Forum Energy Technologies Announces Full Year and Fourth Quarter 2021 Results

### Full Year 2021 Highlights

- Revenue increased \$29 million year-over-year to \$541 million
- Orders of \$632 million and a book-to-bill ratio of 1.17
- Net loss of \$83 million
- Adjusted EBITDA increased \$39 million to \$20 million
- Acquired two new technologies complementary to our portfolio

HOUSTON, TEXAS, February 28, 2022 - Forum Energy Technologies, Inc. (NYSE: FET) today announced fourth quarter 2021 revenue of \$148 million, an increase of \$7 million from the third quarter 2021. Orders received in the quarter were \$160 million. Net loss for the quarter was \$20 million, or \$3.46 per diluted share, compared to a net loss of \$12 million, or \$2.05 per diluted share, for the third quarter 2021. Excluding \$7 million, or \$1.23 per share of special items, adjusted net loss was \$2.23 per diluted share in the fourth quarter 2021, compared to an adjusted net loss of \$2.25 per diluted share in the third quarter 2021. Adjusted EBITDA declined by \$3.0 million sequentially to \$4.2 million.

Special items in the fourth quarter 2021, on a pre-tax basis, included \$3.3 million of inventory impairments, \$1.8 million of foreign exchange losses and \$1.8 million of restructuring, transaction and other costs. See Tables 1-5 for a reconciliation of GAAP to non-GAAP financial information.

Neal Lux, President and Chief Executive Officer, remarked, "On a pro forma basis, our 2021 results were a remarkable turnaround from 2020. Revenue improved by \$70 million<sup>(1)</sup>, supported by a rebounding market and the introduction of innovative products and solutions. In addition, EBITDA grew by \$52 million<sup>(1)</sup>, resulting in a 72% incremental margin, which demonstrates the long-term earnings power of our product offerings and significant cost reductions executed in early 2021.

"As previously announced, continued growth in drilling and completion activity supported sequential increases in revenue and backlog. Despite higher demand for our products, on-going supply chain delays constrained our revenues and cost inflation impacted our profitability. EBITDA of \$4 million fell short of our expectations as higher revenues were more than offset by increases in costs including raw material, freight and employee benefit costs for our self-insured medical plan. In the first quarter, industry activity and demand for our products have continued to increase. However, supply chain and cost headwinds continue to compress our profitability, and as a result, we currently forecast first quarter EBITDA to be in the range of \$5 to \$7 million.

<sup>(1)</sup> Revenue and EBITDA growth is pro forma for the December 2020 divestiture of our ABZ and Quadrant valve brands. See "Supplemental schedule - Pro forma results for divestiture of ABZ and Quadrant valve brands" included at the end of this release.

“While commodity prices and cash flows for E&P operators are at multi-year highs, drilling and completions activity remains well below pre-pandemic levels. This imbalance indicates a long-term opportunity for incremental investment in energy production. FET’s broad portfolio of innovative and differentiated products will be needed to meet the supply shortage over the coming years. We expect our profitability to increase over the course of 2022 as we realize improved pricing and mitigate supply chain challenges.”

### **Segment Results**

Drilling & Downhole segment revenue was \$67 million, an increase of 5% from the third quarter 2021 driven by higher demand for our drilling consumable products and downhole casing and cementing products. Orders were \$61 million, a decrease of \$23 million from the third quarter 2021 which included significant orders in our subsea product line. Segment adjusted EBITDA was \$6 million, down \$3 million from the third quarter, resulting primarily from inflation in raw material and freight costs which outpaced the increase in revenue. Drilling & Downhole operations focus primarily on capital equipment and consumable products for global well construction, artificial lift and subsea markets.

Completions segment revenue was \$51 million, a sequential increase of \$1 million, or 3%, due to higher demand for equipment from our pressure pumping service customers in the fourth quarter. Orders in the fourth quarter were \$53 million, a decrease of \$7 million, or 11%, from the third quarter 2020 which included significant orders for new product offerings in our Stimulation and Intervention product line. Segment adjusted EBITDA was \$5 million, in line with third quarter results as higher revenues were offset by cost inflation. The Completions segment designs and manufactures products for the coiled tubing, wireline and stimulation markets.

Production segment revenue was \$31 million, an increase of \$2 million, or 8%, from the third quarter primarily due to higher valve demand from our customers in the downstream market. Orders in the fourth quarter were \$46 million, an increase of \$13 million, or 41%, from the third quarter due to significant orders for well-site production equipment for deliveries throughout 2022. Segment adjusted EBITDA was negative \$2 million, in line with third quarter results as higher revenues were offset by increases in material and freight costs. The Production segment manufactures land well site production equipment, desalination process equipment, and a wide range of valves for upstream, midstream and process industry customers.

*FET (Forum Energy Technologies) is a global company, serving the crude oil, natural gas, and renewable energy industries. FET provides value added solutions that increase the safety and efficiency of energy exploration and production. We are an environmentally and socially responsible company headquartered in Houston, TX with manufacturing, distribution, and service facilities strategically located throughout the world. For more information, please visit [www.f-e-t.com](http://www.f-e-t.com).*

## **Forward Looking Statements and Other Legal Disclosure**

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts, included in this press release that address activities, events or developments that the company expects, believes or anticipates will or may occur in the future are forward-looking statements. Without limiting the generality of the foregoing, forward-looking statements contained in this press release specifically include the expectations of plans, strategies, objectives and anticipated financial and operating results of the company, including any statement about the company's future financial position, liquidity and capital resources, operations, performance, acquisitions, returns, capital expenditure budgets, new product development activities, costs and other guidance included in this press release.

These statements are based on certain assumptions made by the company based on management's experience and perception of historical trends, current conditions, anticipated future developments and other factors believed to be appropriate. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of the company, which may cause actual results to differ materially from those implied or expressed by the forward-looking statements. Among other things, these include the severity and duration of the COVID-19 pandemic and related repercussions resulting from the negative impact on demand for oil and natural gas, the volatility of oil and natural gas prices, oilfield development activity levels, the availability of raw materials and specialized equipment, the company's ability to deliver backlog in a timely fashion, the availability of skilled and qualified labor, competition in the oil and natural gas industry, governmental regulation and taxation of the oil and natural gas industry, the company's ability to implement new technologies and services, the availability and terms of capital, and uncertainties regarding environmental regulations or litigation and other legal or regulatory developments affecting the company's business, and other important factors that could cause actual results to differ materially from those projected as described in the company's filings with the U.S. Securities and Exchange Commission.

Any forward-looking statement speaks only as of the date on which such statement is made and the company undertakes no obligation to correct or update any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by applicable law.

<i>(in millions of dollars)</i>	Three months ended		
	December 31, 2021	December 31, 2020	September 30, 2021
<b>Orders</b>			
Drilling & Downhole	\$ 60.8	\$ 57.5	\$ 83.4
Completions	52.8	30.3	59.6
Production	46.1	36.3	32.8
<b>Total orders</b>	<b>\$ 159.7</b>	<b>\$ 124.1</b>	<b>\$ 175.8</b>
<b>Revenue</b>			
Drilling & Downhole	\$ 66.5	\$ 49.9	\$ 63.2
Completions	51.0	30.6	49.7
Production	30.9	32.5	28.5
Eliminations	(0.3)	—	(0.4)
<b>Total revenue</b>	<b>\$ 148.1</b>	<b>\$ 113.0</b>	<b>\$ 141.0</b>
<b>Book to bill ratio <sup>(1)</sup></b>			
Drilling & Downhole	0.91	1.15	1.32
Completions	1.04	0.99	1.20
Production	1.49	1.12	1.15
<b>Total book to bill ratio</b>	<b>1.08</b>	<b>1.10</b>	<b>1.25</b>

<sup>(1)</sup> The book-to-bill ratio is calculated by dividing the dollar value of orders received in a given period by the revenue earned in that same period. The Company believes that this ratio is useful to investors because it provides an indication of whether the demand for our products, in the markets in which the Company operates, is strengthening or declining. A ratio of greater than one is indicative of improving market demand, while a ratio of less than one would suggest weakening demand. In addition, the Company believes the book-to-bill ratio provides more meaningful insight into future revenues for our business than other measures, such as order backlog, because the majority of the Company's products are activity based consumable items or shorter cycle capital equipment, neither of which are typically ordered by customers far in advance.

Diluted EPS - as adjusted			\$ (2.23)			\$ (4.80)			\$ (2.25)

(1) The Company believes that the presentation of EBITDA, adjusted EBITDA, adjusted operating income, adjusted net income and adjusted diluted EPS are useful to the Company's investors because (i) each of these financial metrics are useful to investors to assess and understand operating performance, especially when comparing those results with previous and subsequent periods or forecasting performance for future periods, primarily because management views the excluded items to be outside of the Company's normal operating results and (ii) EBITDA is an appropriate measure of evaluating the Company's operating performance and liquidity that reflects the resources available for strategic opportunities including, among others, investing in the business, strengthening the balance sheet, repurchasing the Company's securities and making strategic acquisitions. In addition, these benchmarks are widely used in the investment community. See the attached separate schedule for the reconciliation of GAAP to non-GAAP financial information.

(2) Foreign exchange, net primarily relates to cash and receivables denominated in U.S. dollars by some of our non-U.S. subsidiaries that report in a local currency, and therefore the loss has no economic impact in dollar terms.

**Table 4 - Adjusting Items**

<i>(in millions of dollars)</i>	Year ended	
	December 31, 2021	December 31, 2020
<b>EBITDA reconciliation (1)</b>		
Net loss	\$ (82.7)	\$ (96.9)
Interest expense	32.0	30.3
Depreciation and amortization	42.2	51.0
Income tax benefit	0.7	(12.9)
<b>EBITDA</b>	<b>\$ (7.8)</b>	<b>\$ (28.5)</b>

<sup>(1)</sup> The Company believes that the presentation of EBITDA is useful to investors because EBITDA is an appropriate measure of evaluating the Company's operating performance and liquidity that reflects the resources available for strategic opportunities including, among others, investing in the business, strengthening the balance sheet, repurchasing the Company's securities and making strategic acquisitions. In addition, EBITDA is a widely used benchmark in the investment community.

**Table 5 - Adjusting items**

	Year ended	
	December 31, 2021	December 31, 2020
<i>(in millions of dollars)</i>		
<b>Free cash flow, before acquisitions, reconciliation <sup>(1)</sup></b>		
Net cash provided by operating activities	\$ (15.8)	\$ 3.9
Capital expenditures for property and equipment	(1.8)	(2.2)
Proceeds from sale of property and equipment	7.0	5.3
<b>Free cash flow, before acquisitions</b>	<b>\$ (10.6)</b>	<b>\$ 7.0</b>

<sup>(1)</sup> The Company believes free cash flow, before acquisitions is an important measure because it encompasses both profitability and capital management in evaluating results.
