

INVESTOR PRESENTATION

SECOND QUARTER 2026

Forward Looking Statements and Non-GAAP Reconciliation

The statements made during this presentation, including the answers to your questions, may include information that the Company believes to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act. Forward-looking statements involve risk and uncertainties that may cause actual results or events to differ materially from those expressed or implied in such statements. Those risks include, among other things, matters that the Company has described in its earnings release and in its filings with the Securities and Exchange Commission, including its most recent annual report on Form 10-K and subsequently filed quarterly reports on Form 10-Q. The Company does not undertake any ongoing obligation, other than that imposed by law, to publicly update or revise any forward-looking statements to reflect future events, information, or circumstances that arise after this presentation. In addition, this presentation contains time sensitive information that reflects management's best judgment only as of the date of this presentation.

All references to EBITDA in this presentation refer to adjusted EBITDA. All references to Free Cash Flow in this presentation refers to Free Cash Flow, before acquisitions, unless otherwise noted.

Please see “Appendix” for a reconciliation of all FET-related non-GAAP financial measures referenced in this presentation.

The iShares Russell 2000 ETF (IWM-US) and the equities contained within were used as a proxy for the Russell 2000. Source is FactSet and all data is as of July 30, 2026. For full year 2025, if a company has not yet reported full year 2025 financial results, a trailing-twelve months ended September 30, 2025 figure was used. For annualized returns comparison, the Russell 2000 Index (RUT) was used.

The Russell 2000 Manufacturing Comps consists of companies that are classified as aerospace & defense, OEM auto parts, construction materials, electronic production equipment, industrial machinery, industrial specialties, metal fabrication, miscellaneous manufacturing, and oilfield services/equipment.

Global Oil Supply Needed to Meet Long-term Demand

Global Oil Supply

(Millions of barrels per day)

Global Drivers Support Market Growth to 2030

Global GDP growth, urbanization, and electricity consumption increases demand.

Investment is required to grow supply meaningfully to meet increasing demand.

Global rig count increases with service efficiency at or greater than historical levels.

Middle East Conflict Accelerating Required Investment

Disruption to regional oil flows with global production below pre-conflict levels.

Record drawdowns of inventory and strategic reserves drive investment to restock.

Increasing prioritization around energy security, supply resiliency, and diversification.

***“Beat the Market” Strategy
Delivering Market Share Gains***

“Beat the Market” Strategy at Work

Product Innovation Expanding Addressable Markets

Cased-hole Wireline

The workhorse of the shale revolution, FET manufactures high performance wireline cables. Our cables are engineered to outperform and withstand the extreme pressure and temperature of well conditions.

“Beat the Market” Attributes

- ✓ Targeted market coupled with manufacturing know-how
- ✓ Innovation with greaseless cable technology
- ✓ Export to capture growing global unconventional resource plays

Power Generation

A leading cooling system manufacturer, FET specializes in building industrial heat exchangers. Our over 40 years of experience and expertise can tailor designs for customers’ various applications.

“Beat the Market” Attributes

- ✓ Leading supplier for traditional hydraulic fracturing
- ✓ Product and technology adaption
- ✓ Penetrate artificial intelligence and data center markets

“Beat the Market” Strategy at Work

Product Innovation Expanding Addressable Markets

Sand and Flow Control

With in-depth technical understanding of well conditions, FET manufactures and delivers leading solutions for sand and flow control. Customized solutions optimize injection and steam flow to maximize oil production.

“Beat the Market” Attributes

- ✓ Leadership position in Canadian thermal oil sands
- ✓ Global expansion for Middle East and Latin America applications
- ✓ Manufacturing know-how and in-house technical expertise

Downhole Pump Protection

Operating in the most challenging environments, FET provides solutions to protect downhole equipment. A failure prevention focus achieves more consistent production while reducing downhole failures.

“Beat the Market” Attributes

- ✓ Leading United States position with proven value proposition
- ✓ Export technology to larger geographic addressable markets
- ✓ Innovation driving adoption and new customer penetration

Poised for Growth

Market Positioning and Broad Portfolio Supports Growth

Leadership Markets

- ✓ Meaningful market share
- ✓ Fully adopted industry solutions
- ✓ Broad geographic exposure

~Two-thirds of FET revenue with growth from market expansion

Sustain Edge in Leadership Markets

Growth Markets

- ✓ Targeted markets with fewer competitors
- ✓ Innovation gaining adoption
- ✓ Expanding geographic reach

Growth opportunity for new customer acquisition

Global Drivers

Production Growth Needed to Overcome Decline Rates

Global Oil Production by Year Completed

(Millions of barrels per day)

Global E&Ps need to offset 29 million barrels per day of production decline and grow production 6 million barrels per day to meet demand by 2030

Long-term Growing Demand for Natural Gas

United States LNG Export Capacity

(billion cubic feet per day)

United States LNG export capacity to almost double by 2028

Energy security and data centers driving natural gas demand growth

Service Intensity Growth

Well Stages per U.S. Rig

Thousand Feet Drilled per U.S. Rig

FET benefits from increased service intensity

Global Rig Count to Balance Demand

Global Rig Count

(Average yearly rig count)

Rig count approaches
2023 peak levels

Assumes service
intensity gains continue
at 7% per year

Expand Participation in New Energy & Sustainability

Social

- A “good place to work” is a core value promoting mutual respect, personal development, a safe environment, and workforce diversity
- Female, ethnic, and racial diversity above US oil and gas industry averages
- Total recordable incident rate of 0.98 in 2025 has decreased 60% since initial public offering

Environmental

- Minimize our environmental impact through continuous improvement and best practices
- Zero significant or reportable spills in 2025
- Water recycling programs at several high-water usage facilities

Governance

- Gender and ethnic diversity of our board of directors
- Directors bring a diverse set of skills, competencies, and experience to better serve the organization and shareholders
- 100% of FET’s non-executive directors are independent

Core Values

Our Core Values Permeate All Areas of Our Company

Customer Focused

Our products enhance our customers' performance. We listen to their needs and work with them to solve their challenges.

Integrity

In everything we do, in every interaction, both internally and externally, we strive to operate with the utmost integrity and mutual respect.

No One Gets Hurt

The safety of our employees and customer is our first priority.

Good Place to Work

We are committed to creating a workplace that fosters innovation, teamwork and pride. Every team member is integral to our success and is treated equally and fairly.

Optimized Portfolio For Resilient and Profitable Growth

Building a Diversified and Sustainable Business Through Consolidating and Integrating Differentiated Technologies
